Hey! It's Jess – I talked to Josh and he said I could bring my car to you. I have a little more to pack up etc. Would you be able to give me a ride home later tonight? Or would tomorrow work better?

Hey Jess – Let's do it tomorrow if that's ok with you. I've got a few things to finish up and need to help get the girls to bed tonight.

I'm super flexible between 9am and 1pm so anytime in there I can give you a ride back to da criiiib

Getting kids to bed is when the work actually starts!

Tomorrow will work great – I will text you. Thank you!

Random question – do you know what the 4 digit password might be for that old iPhone? It has a cute dogs face on it and is locked so I want to make sure I wipe and reset it before sending it on.

I thought I reset it?! I'm terrible with phones

Caustic – 8735 is the code

Thank you for clearing it

All the photos and stuff saved on iPhone is deleted but all the apps are still connected to your accounts

So I want to clear that shot before it goes to a random location in chicago/repurposed to another rep

Sorry - I didn't remember ever logging into it

It would be you Apple ID password
